PRINCIPALS CORNER

Autumn is on the horizon... The season of change is in the air!

Here at FLS, we see change through the lens of life-long learning, having a growth mindset and continual improvement. Over the past two weeks, I have had the pleasure of meeting with every teacher to discuss their professional goals and educational hopes for the school year. As a faculty, I have heard that student well-being and educational success is at the top of their list. By staying open to feedback, facing challenges with grace, and working together, our teachers intend to create a healthy educational environment where growth is not just a goal, but a shared commitment. We will keep pushing ourselves to be better than we were yesterday, knowing that every small step forward leads to greater success for our students as well. Scripture encourages us... "Whatever you do, work at it with all your heart, as working for the Lord, not for human masters." Colossians 3:23.

Leaning into the theme of continual learning, our teachers will attend the NW District Educator's Conference in October in order to stay current regarding educational best practices.

We pray that as your family transitions into this new season of the fall, you too will take some time to set goals for your family so that everyone can work to be the best version of themselves.
